

Environmental Policy Statement

Platinum Electricians specialises in electrical installation and maintenance services for the commercial, industrial and domestic markets throughout Australia.

This statement recognises the requirements of ISO 14001 and will ensure that Platinum Electricians:

- Will improve our awareness and management of environmental risks
- Commit to comply with relevant legislation and fulfil all compliance obligations placed upon the organisation
- Contain measurable objectives and targets
- Commit to the prevention of pollution
- Commit to protection of biodiversity and the ecosystem
- Commit to reduce energy consumption where possible
- Commit to help reduce climate change and adaptation where possible
- Commit to the protection of the environment;
 - We will promote usage of solar power.
 - We will commit to paperless invoicing.
 - We will recycle light globes and fluoresce tubes appropriately.
 - We will promote energy efficient lighting solutions.
 - Commit to the use of electronic signing programs such as DocuSign to reduce printing, where possible
- Commit to comply with relevant legislation and fulfil all compliance obligations placed upon the organisation
- Commit to enhance environmental performance by continually improving its environmental management system and establish systems for auditing, monitoring and reporting performance.

We will work closely with our clients, contractors, the community, industry and external agencies to establish the controls by which we can make a positive contribution towards innovative, cost-effective and sustainable environmental outcomes.
